## ARE YOU FACING THESE PROBLEMS WHEN THE LINE IS DOWN?

TAKE HOURS TO GET SOMEONE KNOWS!

ALWAYS HAPPENS AT NIGHT TIME

SLOW RESPONSE FROM SUPPORT TEAM

TOO MANY EXCUSES

### "Instant messaging"

- Immediately send SMS & Email out
- Customizable rules and equations
- Prioritized messaging
- Get reports with live data

### "Easy & Ready"

- Based on OPC Server, ready to plug into your system
- ODBC helper, pulling data from database
- Self-managed mobile operator account

## "NOT ONLY ALARM, YOU GET DATA ON DEMAND"

### "Remote Command"

- Caller ID & Access Key to pass authorized
- SMS or Voice Call allowed
- Customizable report template
- Real-time data with voice status

---

## SystemTALK )))
### where system can say

## Fast Facts

**OPC** is open connectivity in industrial automation and the enterprise systems that support industry. Interoperability is assured through the creation and maintenance of open standards specifications. There are currently seven standards specifications completed or in development.

**GSM** is the most popular standard for mobile phones in the world. Its promoter, the GSM Association, estimates that 82% of the global mobile market uses the standard. GSM is used by over 3 billion people across more than 212 countries and territories.

**SMS**, Short Message Service is a communications protocol allowing the interchange of short text messages between mobile telephone devices. SMS text messaging is the most widely used data application on the planet, with 2.4 billion active users, or 74% of all mobile phone subscribers sending and receiving text messages on their phones.

## OPC TALK™

## OPC TALK™ (diagram panel)

Process | OPC Server | OPC TALK | GSM Network | Users

**Factory "Production Line"**

- QC in laboratory — High Defect!
- Production Team at shop floor — Line Down!
- OPC TALK
- Account balance → Admin Receiving email
- Machine Failed → Maintenance On the way to supplier
- Line Down! → Plant manager
- Production Capability → Management in a meeting room

# OPC TALK™

A ready-to-used software to monitor any change of process data through OPC Server. The critical and specific information can be directly sent to users and groups by SMS and email in customizable formats. While plant operators enjoy the immediate event, management can gain benefits and access production capability data on the go.

## Reaction faster = Decrease down-time

**The solution for everyone**

☑ **Production**..............**Instant Alarm**
☑ **Maintenance**................**Line Down**
☑ **Quality Assurance**..........**Defective**
☑ **Management**.................**Live Data**
